YEG KIDS NEWS - 2nd Edition

As Entrepreneurship opportunities rise in Canada, we are excited to announce the very first Kids Entrepreneurial Magazine.

YEG KIDS NEWS is Canada's first magazine with a mission to voice the concerns, ideas and creativity of our kids to the world around us. We believe it is essential to understand the views of our kids as their beliefs directly reflect the direction of our future.

Our magazine works as an essential tool to share unbiased and unfiltered content submitted by our local kids.

Majority of the magazine will be content written and edited by the kids themselves which will include interviews, fun questionnaires, creative business ideas, art work etc.

Make sure to watch out for our "Lemonade Stand" Section where we will be showcasing some of the most inspiring young entrepreneurs of the business world and the impact that they are having on local communities.
